Интернет

Правила интернетов — свод правил, собранный на форчане ради лулзов и примерно отражающий их мемы и образ мыслей. Существует множество версий правил, отличающихся числом, языком, последовательностью. Совпадают чаще всего первые 5 и некоторые популярные, к примеру 12, 34 и 63. 8 правило отрицает правила таковые

Комментарии

Данный список является не точным, а адаптированным переводом, с использованием мемов русскоязычной субкультуры. Список достаточно неполный, есть версии, содержащие более 1000 пунктов. Так правило 42 часто посвящено числу 42, а вовсе не правилу 34. Адекватнее всего было бы вставить туда «в интернетах есть все, в том числе и ответ на твой вопрос». Также в одной из старых картинок с правилами правило 42 представлено как «все может быть взломано и нелегально скопировано», 46, 47 и 48 являются стандартным окончанием любого списка действий на дваче, хотя правила не являются списком действий. 11 правило чаще утверждает, что должно быть подтверждение, не обязательно картинка. Правило 37 добавлено паровоз-куном, всегда dataем поездотредов, аналогов которому нет. Тк тред-рулетка может существовать только на борде с высокой скоростью постинга при наличии определенных персонажей.

Применение

Правила интернетов используются для троллинга практически везде. Будучи рожденными на бордах, великолепно изучены троллями, а вот применяются уже далеко за пределами имиджборд. Так популярным являются правила, касающиеся девушек. Особь женского пола можно дискредитировать, просто устранить из спора, потребовав сиськи. Также активно применяется правило 34, правда в плане создания порно. Как и фурри-порно, как и понибских сюжетов.
